

Utah Smoke-Free Apartment & Condominium Guide Statewide Directory

The TRUTH

The Utah Tobacco Prevention and Control Program, Utah Department of Health, promotes smoke-free housing in order to avoid involuntary exposure to the toxic effects of secondhand tobacco smoke. The program partners with Utah apartment and condominium owners and managers in order to help potential renters or buyers find smoke-free housing.

The following is a listing of properties that provide smoke-free environments. While the list provides information on a property's smoke-free status, it does not keep track of vacancies at any particular location.

There are two types of listings in this directory:

- All buildings and units of the complex are smoke-free; or one or more of the buildings of a complex are smoke-free.
- In some cases the property on which buildings are located may also be smoke-free or there may be limited smoking-permitted areas on the premises outside buildings. We recommend that you carefully inspect properties you may be interested in and look for language in the lease that sets forth both the landlord's responsibilities and the tenants' responsibilities to keep the building free of smoke.

Please note that information in the directory is subject to change without notice. This directory does not guarantee the accuracy of the information provided by those listing properties. If you find a property listed that allows smoking in buildings or areas that are listed below as non-smoking please contact the Utah Tobacco Prevention and Control Program at 1.877.220.3466 (toll-free).

The directory is continuously updated, so a property not currently listed in the area you are interested in may be added at a later time. A more updated web version of this directory may also be available on the web at: <http://www.tobaccofreeutah.org/aptcondoguide-dir.htm>.

This copy of the Utah Smoke-Free Apartment and Condominium Guide Statewide Directory was last updated August 8, 2007.
